DIRECTIONS FOR USE

RESTRAINTS

Do not spray when temperatures exceed 36°C or when soil is dry and plants are suffering from moisture stress.

CROP OR SITUATION	WEED CONTROLLED	RATE	CRITICAL COMMENTS
Cereals, Legumes and Pastures	Refer to herbicide labels	150mL - 2L /100 Litres of Water Rate recommendations will vary depending upon the specific herbicides and the prevailing conditions at the time of spraying	CROPSHIELD™ may be used with such selective herbicides as: Fusilade®, Topik 240EC®, Hoegrass 500®, Sertin 186®, Eclipse®, Targa®, Verdict 520®, Garlon® and Select® to improve their wetting and penetrating properties
Cotton	Defoliation Aid	1L /Ha	Apply in combination with tridiazuron products (e.g. Dropp Liquid1®, Dropp UltraMAX1®) and ethephon products (e.g. Prep 720 Growth Regulator1®). Refer to recommendations provided by Bayer Cropsciences Pty Ltd

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHOLDING PERIOD

To be determined according to choice of herbicide.

GENERAL INSTRUCTIONS

CROPSHIELD™ is made from a highly refined mineral base oil blended with a non-ionic emulsifier designed to be used for its wetting and penetrating properties. When using **CROPSHIELD™** in conjunction with wettable powders such as Atrazine, please contact your local reseller for application rates.

MIXING INSTRUCTIONS

Follow the directions on the herbicide label. **CROPSHIELD™** should be added last to the spray tank. Agitate well to mix thoroughly.

CROP SAFETY

Follow directions on herbicide label. The use of spraying oil in conjunction with Hoegrass® may reduce selectivity.

COMPATIBILITY

Post-Emergent Grass selective applications: **CROPSHIELD™** is compatible with such selective herbicides as Fusilade®, Topik 240EC®, Hoegrass 500®, Sertin 186®, Eclipse®, Targa®, Verdict 520®, Garlon® and Select®, etc.

PROTECTION OF LIVESTOCK, FISH CRUSTACEA AND ENVIRONMENT

Do not contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Store in the closed original container in a cool, well ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling break, crush, puncture and bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of water ways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

REFILLABLE CONTAINERS

For 110L containers empty contents fully into application equipment. Close all valves and return to point of supply for refilling or storage.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (**Phone 13 11 26**). If swallowed do not induce vomiting, give a glass of water.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet (MSDS). These are available on the SACOA website - www.sacoa.com.au.
